

LANSDOWNE SCHOOL NEWSLETTER

It has been wonderful to welcome all our students back for the new academic year. Our new Year 7 students are settling in well and our older pupils were delighted to see the new Food Technology room, Art Room and the trampolines in the playground. We are all so pleased that the school day has gone back to normal and that we are able to offer the after school clubs on a Tuesday and Thursday. This week I held our first School Council meeting and I told them that in the coming weeks they are going to help me to make a short film highlighting our new facilities.

It really is great to be back!

Class of the Week

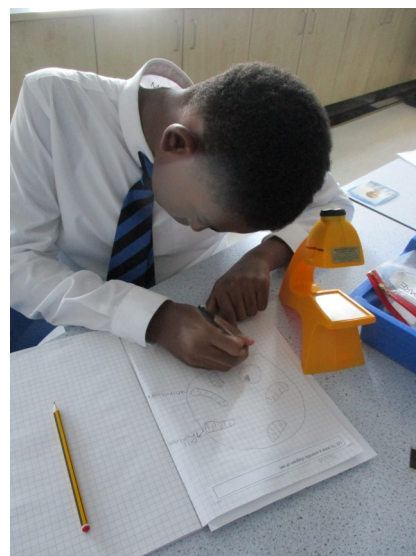

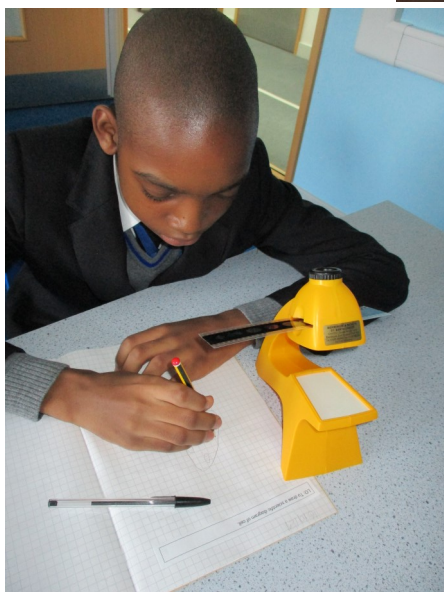

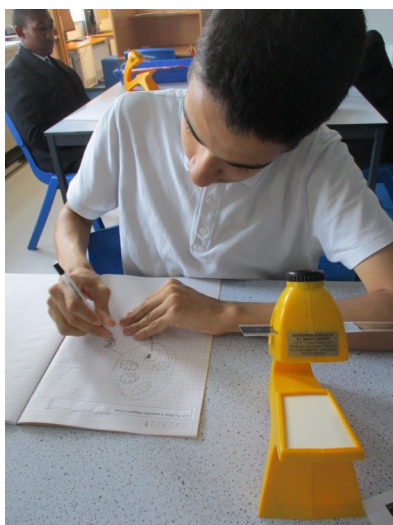

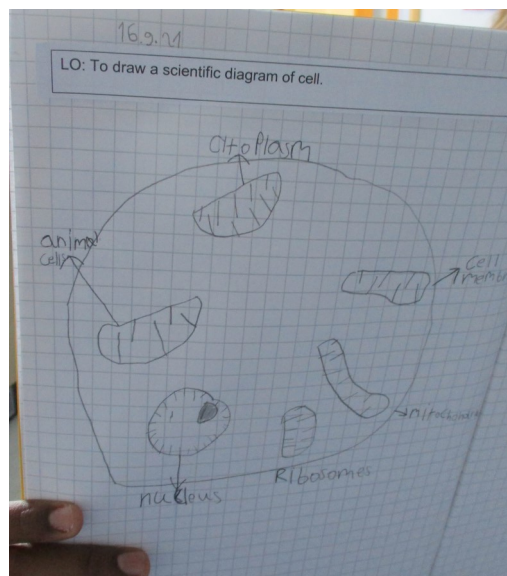

7BM

Congratulation!

what we learned

In the Science lesson, 10AW studied the cell structures and their functions. They learned how to draw a scientific diagram. The students used the bioviewers to look at an animal cell, then drew a cell on the paper. They knew they had to use a sharp lead pencil to draw and a black pen to label.
