

LANSDOWNE SCHOOL NEWSLETTER

We were really excited to welcome students back last week and are looking forward to the term ahead. I hope everyone had a good break over Christmas and that 2022 treats you well.

Classes have settled well into the new term and regular events such as library time have restarted. For the moment we are not running after school clubs but hope that we can do in the near future.

This week a new group started Forest School at the site we use in Dulwich. You will see photographs of their activities as part of this newsletter.

Mr Jukes

Forest School *with Mr. Hilton*

This week was the first Forest School session for our latest group of 'recruits'!

We learned how to tie a timber hitch knot, and then used this knowledge to put up our shelter.

It was a beautiful day so we didn't need to use our shelter - but we were really proud of our efforts!

We also learned how to build a safe fire, and used it to keep warm as it was particularly cold!

Yana brought some seeds to make friends with the local wildlife - and while the birds didn't seem very interested, as we were leaving we saw some squirrels tucking in to her kind gift!

Class of the Week

8HL

Congratulation!

New Year's resolutions for 2022

For the year 2022, my New Year's resolutions are about improving. I plan to focus on improving myself, my work and my choices and focus less on what others choose to do.

I plan to focus on the positives and not let the small things distract me or get in my way.

I feel like if I focus on the positives in my life, I can make better choices, be happier in my self and be a good role model to my siblings and the younger students at Lansdowne School.

Djibril

Since the beginning of 2022, my New Year's resolution has been to become a better, stronger and brighter version of myself.

Last year was a mix of emotions for me, as a lot happened during the past twelve months living with Covid and all of the changes this has made to our lives.

But overall I seek a new and stable year ahead and will enjoy what it has in store for me, my friends and my family.

Kaylon

For my 2022 New Year's resolutions I plan to make more quality time to spend hanging out with my friends, outside of school.

I would like to go to new places, like the O2 and have new experiences.

I would like to go on work experience with my dad and look forward to the new things I will learn from this.

I would also like to work towards earning a new console, such as a PS5. This means working hard on my behaviour and school work.

Rahim

Year!

School Clubs

All after school and lunch time clubs are on hold for now— to ensure we all stay safe and well.

Clubs will start again as soon as possible!
