### Year 11 – Virtual CV Workshop

Lansdowne School has successfully organised and facilitated our first virtual careers workshop on Friday 13<sup>th</sup> of November with the Year 11 groups. Chandni from SPARK and a volunteer employer, Sarah from Pfizer, delivered a well-planned and high quality session where the students had the opportunity to learn about strategies on how to make and present their own CV, hear about features that employers look for and work on good and bad CV examples. We acknowledge that our students need these kind of meaningful and interactive opportunities more than ever and we are looking forward to accommodating more virtual events and employer encounters. Many thanks to our teachers, Mr Desmond Lee and Ms Elise Moorhouse who supported our students in the class during this event.

### Mr Anatoliotis

# Looking into our future

## Year 13 – Future pathways 1:1 sessions

Mr A had 1:1 meetings with most of our Year 13 and 13+ students to identify and record their aspirations and provide information about local colleges and other further education providers. He will meet with the rest of the Year 13 students in the very near future.

It is the time of the year when colleges organise their open days for any potential students who want to gain information about their programmes of study. Our students and their families are now encouraged to explore the options offered in our local area and start identifying suitable academic or vocational courses. If the parents / carers require any information or support, we are more than happy to be contacted on the school phone.
