Recently, our friends at Roots and Shoots visited us to help us with our vegetable plot. With 12AM they did lots of weeding to get the beds ready for new plants. Roots and Shoots are based in Kensington and several of our older students spend half a day there each week, working on horticultural tasks. Roots have also given us several ideas around composting and maintaining the vegetable plot which we will work on in the coming months.

# what we learned this week

## PSHE

In year 8 we are learning about how we can become more sustainable and understanding the importance of protecting the environment. Therefore, we have read the story: "One Plastic Bag: Isatou Ceesay and the Recycling Women of the Gambia" by Miranda Paul. We wanted to **reuse, recycle and reduce** our resources and make skipping ropes out of old plastic bags! Take a look at our pictures.
