

English

Students will explore poetry, focusing on vocabulary, figurative language and the style of the poet. We are

focusing on “Old Possums Book of Practical Cats” by T. S. Eliot.

Maths

Measurement – Students will be continuing their work on measurement, moving from length and perimeter to measuring mass and capacity. Students will use a range of practical tools and equipment to measure in both formal and informal units.

Fractions – After measurement, students will move on to fractions. Students will learn how to make and read fractions using tangible items. Students will continue to develop their ability by adding fractions together to make a whole or a new fraction.

Science

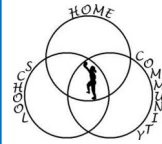

Students are learning about the basic concepts of electric charge, including positive and negative. Student will look at and complete a series circuit, draw conclusions, and make predictions based on whether or not the lamp is part of a complete loop with a battery. They will also look at how electricity is generated and how it travels to our homes.

Humanities

In this term, the students will be focusing on History. The students will be studying the Great

Fire of London and how London changed over time.

In Year 7 this Term students are studying...

Art

Students in Year 7 are continuing on with learning about Aboriginal Australian art this term.

Food Technology

In Term 4 students will explore the topic Food Choice, into the intricate interplay of factors such as

food preferences, culture, tradition, and economic considerations like food price and costs. Students will develop a basic understanding of the dynamics shaping dietary decisions, understanding that different people like and eat different food.

PSHE

For PSHE this term, students will be looking at economic wellbeing where they will learn about money. We will be looking at attitudes to money, ways to pay, wants and needs and how to keep money safe.

PE

Cricket and Rounders
